

Recommendation letter for Mr. Alexandre Maupas

To whom it may concern

Monaco, 25 September 2023

My previous student at the International University of Monaco, Mr. Alexandre Maupas approached me to receive a letter of recommendation for professional purposes. I gladly wrote the lines that follow based on my experience in class with my former student and some exchanges I had with him on the internet.

Mr. Alexandre Maupas participated in my courses Business Law and Law of Information and Internet within the bachelor program of our university. He is approaching graduation in this program. He intends to work in an area where copyright law and the law of internet apply. I am supportive of this plan, as some practical experience seems to be useful at this stage of his professional development.

Alexandre Maupas is a brilliant student; he is committed to the subjects he studies. He is very well motivated to pursue a professional career in the business world. In my courses, he focused particularly upon copyright and related legal issues and well as the law of new technologies. He is well prepared to work practically in the sectors of industry dealing with videos, film production and related issues.

In the light of the above, I warmly support Mr. Alexandre Maupas in his undertakings aiming at widening his experience in the intricate world of business practice.

Dr. phil. Dr. iur. Marcus Galdia
Associate Professor of Law
International University of Monaco
